

## That's a "Latte" PD.

We are a few weeks into the school year. Besides taking care of your students' learning needs, make sure you take time to engage in your own professional learning.

Attend a statewide conference, WI DPI arts session, or join a WI DPI Arts Educator Google Community. Each of these offers multiple ways to learn about trends in the field, effective arts resources, and learning strategies for the classroom. One more opportunity to engage in discussions, but in the comfort of your own space, is the WI DPI Arts Ed Café. There are three dates with a morning and afternoon time for online networking. Visit for five minutes or the full hour, asking questions and sharing with the group. If you wish to host a face-to-face session in your area, contact me directly to discuss ideas. Past sessions have included disciplinary literacy in the arts, arts assessment strategies, online communities, and WI Standards for Music. Let me know how I can help build your arts education skills and knowledge.
